ONE ON ONE

03 JUNIOR PROGRAM

1:1 classes · tailored learning

Four academic classes, one-to-one with a teacher, matched to each student's CEFR level and weak areas.

01 Reading & Vocabulary

Goal · wider vocabulary · comprehension · reading basics

Uses Graded Readers matched to CEFR level. Younger children decode with phonics; older ones focus on inference from context, scanning, skimming and text structure.

02 Functional Writing

Goal · from sentence basics to logical writing

Starts with sentence combining and punctuation, then builds step by step to paragraphs, a daily journal, descriptive essays, and formal and informal letters.

03 Speaking & Pronunciation

Goal · fluency · accurate pronunciation · confidence

Corrects stress and intonation and drills hard sounds (/l/–/r/, /b/–/v/). Situational dialogues, Q&A and quick-response practice build a natural pace without peer pressure.

04 Grammar in Context

Goal · accuracy through use, not memorising

Core sentence structure, consistent tenses and parts of speech are learned inductively from real conversations, then fixed at once with sentence-building correction drills.

GROUP

03 JUNIOR PROGRAM

Group & enrichment classes

Small-group classes build the skill of communicating with friends; large-group enrichment grows body and heart together. Every activity is in English only.

01 Presentation & Discussion

Small group 1:4–1:6

Goal · speaking confidence · teamwork

Public speaking routines, Show & Tell and team projects: children share their ideas in front of friends and make something together.

02 Listening & Dictation

Small group 1:4–1:6

Goal · listening · linked sounds · detail

Children listen to dialogues and descriptions in a range of accents, catch the gist and the details, then check precisely with dictation.

03 Sports & PE

Large group · new sport daily

Goal · fitness · health · English through movement

Swimming, badminton, table tennis, basketball, indoor sports and team challenges. Coaching, referee calls and teamwork are all in English only.

04 Music & Arts

Large group · alternate days

Goal · self-expression · cultural experience

English songs, rhythm and voice, beginner ukulele and musical theatre / canvas painting, clay, cultural crafts, an English storytelling art journal. Children express their ideas and feelings in English.

DAILY

03 JUNIOR PROGRAM

How the day starts and ends

Mornings that wake up through movement, evenings wrapped up with a teacher. A steady rhythm builds your child's focus.

08:00 – 08:45

Morning stretch · Active Wake-Up

Light yoga, dynamic stretching, jump rope and a campus walk. Burning off morning energy sharpens focus in class, and children pick up body words and simple instructions naturally.

19:00 – 20:30

Supervised study · all juniors

Every junior student spends 7:00–8:30 pm with a supervising teacher, writing the day's journal, preparing for vocabulary quizzes and reviewing the day.

BEYOND CLASS

03 JUNIOR PROGRAM

English beyond the classroom

01

The camp project

Every camp builds one big project. The summer camp's is "My English Summer Adventure": a journal, photos and drawings, a vocabulary collection and a short presentation. The winter camp's is "My Winter English Experience": a team project, a presentation, a performance and a reflection. It is something parents can hold in their hands when the camp ends.

02

WALES English Zone

English is not only for the classroom: it is used in clubs, activities, at meals, during camp activities and between friends. Your English Doesn't Stop When Class Ends.

03

Entrance and exit interviews

Every junior student sits a one-to-one interview at the start and at the end of camp, so we can measure their progress in English, fine-tune class placement and celebrate how far they have come.

PARENTS

06 FOR PARENTS

What parents receive

Even while your child is away, you can follow each day of camp up close.

Parent page

Reports and photos are posted on the parent page, which you open with your child's access code, issued at enrolment.

Entrance and exit interviews

A one-to-one interview at the start and end of camp measures how much your child's English has grown.

The camp project

When camp ends, you see the project work for yourself: a journal, photos and drawings, a vocabulary collection and a presentation.

Your point of contact

The WALES partner agency you enrol through helps you prepare the paperwork before departure and stays in touch with the campus.

RULES

07 CAMP RULES

Camp rules

Please check these before you enrol.

1

WEG fee

Students under 15 must pay the immigration fee for a child under 15 travelling without a parent (WEG) separately. Please prepare PHP 3,660 in cash (pesos) and hand it to the escort.

2

WEG notarisation

The notarisation fee for the WEG affidavit is separate and must be paid separately.

3

Travel insurance

Travel insurance is separate. Please buy it no later than one week before departure and submit the insurance certificate. Students without travel insurance will not be admitted.

Your WALES partner agency will guide you through the WEG papers and travel insurance.

Phones · weekends 2

FAQ

08 FAQ

Common questions

Can we join or leave partway through a session?

A camp starts and finishes on set dates, with everyone arriving and leaving together. If those dates do not fit, you can wait for the next session — or, if a guardian can come along, the Family Camp starts every Monday.

Can a guardian come along too?

When a guardian comes as well, that is the Family Camp. On that one, enrolling the guardian for lessons is optional.

This is the first time my child will be away alone, and I am worried.

An escort travels with the group from departure to return, and lessons, daily life and activities all take place on campus. At the consultation we go through the day-to-day care arrangements in detail.

When does the camp run?

There are two seasons, a summer camp and a winter camp. School holidays differ from country to country, so departures open as separate sessions for each country, and confirmed sessions are posted on the website.
